Specialities

Work Experience

18 Months

Jun 2022 - Dec 2023

Software Engineer / Software Developer
A & B

1. **Web Developer | XYZ Tech Solutions (Current Position)** Leveraging expertise in HTML, CSS, and JavaScript to develop dynamic and responsive websites. Instrumental in implementing React.js for enhanced user interfaces. Collaborating closely with cross-functional teams to ensure seamless integration of design and functionality. Contributing to the adoption of modern web development practices.

2. **Front-End Developer | ABC Digital Agency** Spearheaded front-end development initiatives for diverse client projects. Applied advanced knowledge of Bootstrap and Tailwind to create visually appealing and user-friendly interfaces. Implemented JavaScript functionalities, optimizing website performance. Maintained consistent communication with design and back-end teams to achieve project goals.

3. **WordPress Developer | WebCraft Studios** Specialized in WordPress development, creating custom themes and plugins to meet client specifications. Implemented OOP principles for efficient and scalable code. Collaborated with clients to understand requirements and provided tailored solutions. Ensured the seamless integration of WordPress features, contributing to the overall success of web projects.

Throughout my career, I have consistently demonstrated a commitment to excellence, adaptability to evolving technologies, and a collaborative approach to achieving project objectives. I am excited to bring my technical skills, creativity, and passion for innovation to future endeavors.
